ApnoMart Q2 2026 — Executive Insights

Prepared by Kedheesw Ar | ApnoAI Data Analytics Intern | October 2026

Data note: The supplied CSV contains 383 orders dated 1 May–30 June 2026 for Q2; no April records were present. Findings therefore describe the available May–June slice, not a complete April–June quarter.

Executive snapshot

Total sales: ■**5,338,674.40** · Total profit: ■**1,374,060.32** · Orders: **383** · Weighted profit margin: **25.74%**.

Insight 1 — Revenue pattern

Pattern: Clothing is the largest category by revenue at ■1,174,352, representing 22.0% of total sales. Sales declined from ■2,801,541 in May to ■2,537,133 in June (-9.4%). **So what:** Protect availability and merchandising for the leading category, while reviewing June's decline by city, product and category before planning the next quarter.

Insight 2 — Profitability pattern

Pattern: South generated the most profit (■337,949), while East generated the least (■246,453). There were 27 loss-making orders out of 383 (7.0%). **So what:** Compare discount levels, product mix and fulfillment costs in the lowest-profit region and loss-making orders; set a review threshold for orders with negative expected margin.

Insight 3 — Customer behavior

Pattern: Corporate is the largest segment by revenue at ■1,520,458. Cash was the most common payment method with 86 orders (22.5%). **So what:** Test repeat-purchase offers for the leading segment and make checkout/payment messaging clear for cash users, while monitoring conversion and order profitability by payment method.

Strategic recommendation for next quarter

Run a focused 30-day profitability pilot: audit the loss-making orders and lowest-profit region, test tighter discount guardrails on low-margin products, and track weekly sales, profit margin and conversion by category and customer segment. Scale only changes that improve profit without materially reducing sales.

Category and region summary

Category	Sales (■)	Profit (■)	Orders
Clothing	1,174,352	294,952	90
Sports	1,124,855	316,463	75
Office Supplies	1,064,152	323,255	69
Furniture	1,012,525	258,906	75
Electronics	962,791	180,485	74
